GHOST

CARBONTECH™ AIR SOFT GUNS

EVOLUTION

PRESENTED AS A CONCEPT AT THE IWA2019 THE NEW GHOST IS FINALLY LIVE AND IT IS READY TO CHANGE THE RULES OF THE GAME.

EVOLUTION COMBAT GHOST

Entirely designed in Italy in Gardone Valtrompia (the firearms valley where are based the 90% or the prestigious Italian firearms manufacturers like Beretta) by one of the most requested real gun designers with which Evolution International worked side by side to develop a ground breaking line of guns that doesn't have equals on the market for what concerns the design and the technological and technical content.

CARBONTECH™ AIR SOFT GUNS

EVOLUTION

ELECTROMAGNETIC CORE

The GHOST incorporates an ETU, Electronic Trigger Unit, with **electromagnetic sensors**.

A powerful **Active Brake**, **Full Cycle control** (like the Systema PTW), and a sophisticated **battery protection** system are always on for superior performance and peace of mind.

**BUILT-IN
ETU**

ACTIVE BRAKE

Two powerful AB Mosfets use the motor as an electromagnetic brake to stop the gears in the wanted position avoiding double shots and piston bounce when using high voltage batteries.

FULL CYCLE

The piston always complete the shooting cycle and stops in the same position for an increased reactivity and enhanced shooting experience.

BATTERY PROTECTION

The battery is constantly monitored and the power is cut-off if the voltage falls below the security level to avoid over-discharge that may damage the battery's cells.

ELECTROMAGNETIC ELECTRONIC TRIGGER

a very sensible and reactive trigger with the cycle driven by an electromagnetic sensor.
