PHANTOM[®]

AIRSOFT GUNS

The PHANTOM[®] brand is well known in the airsoft market for the high quality and affordable price of their riflescopes, red dot sights and tactical gear. Now PHANTOM[®] expands his offer to a complete range of air soft guns and new accessories, becoming one of the most complete and comprehensive lines of air soft guns, accessories and gear on the market. PHANTOM[®] Airsoft adds to

his catalogue complete line of Air Soft Guns designed to boost your sales. From the packaging to the eye catching stickers, everything is designed to maximize your sales. In spite of their low price the new PHANTOM[®] airsoft rifles come into an high quality color printed box. This takes apart the PHANTOM[®] products from the competition as competitor's products, in this price range, usually

come into a cheap and awful looking plain cardboard box. The paintwork, finishing, packaging and accessories included in the box are high level, usually associated to the most expensive products. All PHANTOM[®] electric powered air soft guns come as standard with a high quality NiMH battery and battery charger. All guns are LiPo ready. The new PHANTOM[®] rifles are designed to capture

the attention of customer and be recognizable at first glance from the distance. Customers can read all the information regarding the gun on the removable sticker on the stock, this is an unique feature of PHANTOM[®]. The PHANTOM[®] airsoft guns come with a durable gearbox featuring a number of parts that are usually offered as upgrade components. The gearbox features the laser engraved PHANTOM[®] logo as well as the mandatory CE Mark and Trash Bin logo. Unlike most of the competitors' products the PHANTOM[®] air soft guns are compliant with all CE and RoHS regulations. The feeling an air soft gun transmits to the player is very important, for this reason the new PHANTOM[®] air soft guns feature a proprietary custom designed special forces style logo laser engraved on the body. The logo is a proprietary design and will free customers from license infringements issues which are really common with competitors' products.

THE PHANTOM[®] AIR SOFT GUNS ARE MORE THAN JUST GUNS, THEY ARE A MARKETING STRATEGY TO BOOST YOUR SALES. THIS IS JUST THE BEGINNING.
