HIGH PERFORMANCE AIRSOFT BB

The Evolution High Performance BBs represent the ideal choice for airsoft enthusiasts seeking a high-quality and environmentally friendly product. With their biodegradable composition, certifications, and advanced technical features, Evolution BBs ensure exceptional and sustainable performance.

PLA-Based Biodegradable

- Evolution BBs are made from PLA, a fully biodegradable material.
- This material is derived from renewable plant sources, ensuring a lower environmental impact.

Sustainability and Certification

- The BBs are certified in Italy by the CSI laboratory of the IMQ group, attesting to their quality and safety.
- Being biodegradable, Evolution BBs contribute to reducing pollution, breaking down easily in a compostable environment.

Availability in Versions

- They are available in three versions: Bio, Bio Tracer, and Regular.
- The Bio Tracer version allows you to follow the trajectory of the BBs even in low visibility conditions, increasing shooting accuracy.

Perfectly Smooth Surface

- The surface of the BBs is perfectly smooth, uniform, and free of imperfections, improving shooting accuracy and speed.
- Advanced production technology prevents the formation of air bubbles inside the BBs, ensuring perfect balance.

Size and Precision

- The BBs have a size of 5.95 mm with a tolerance of ± 0.01 mm, ensuring optimal performance with all high-quality airsoft replicas.
- This level of size precision allows for greater consistency and reliability during use.
- Performance and efficiency are optimal even when used with various types of high-performance hop-up rubbers and precision barrels.

EVOLUTION

ITALIAN AIRSOFT EXCELLENCE

BIODEGRADABLE BB

CERTIFICATION

The Evolution Biodegradable BB are made of Polylactate (PLA), a type of biodegradable and bio-based plastic, mainly derived from corn starch, sugar cane, or other renewable sources. It is one of the most promising and widely used biopolymers in the field of sustainable materials. Product certified by CSI laboratory, Italy, IMQ Group. Test Report No. 1119/FPMMATs23.

CERTIFICAZIONE

Gli Evolution Biodegradable BB sono fatti a base di Polilattato (PLA), un tipo di plastica biodegradabile e bio-based, derivante principalmente dall'amido di mais, dalla canna da zucchero o da altre fonti rinnovabili. È uno dei biopolimeri più promettenti e utilizzati nel campo dei materiali sostenibili. Prodotto certificato dal laboratorio CSI, Italia, Gruppo IMQ. Rapporto di Prova n° 1119/FPMMATs23.

CERTIFICATION

Les Evolution Biodegradable BB sont fabriqués à base de Polylactate (PLA), un type de plastique biodégradable et bio-sourcé, principalement obtenu à partir d'amidon de maïs, de canne à sucre ou d'autres sources renouvelables. C'est l'un des biopolymères les plus prometteurs et utilisés dans le domaine des matériaux durables. Produit certifié par le laboratoire CSI, Italie, Groupe IMQ. Rapport d'Essai n° 1119/FPMMATs23.

CERTIFICACIÓN

Las Evolution Biodegradable BB están hechas a base de Polilactato (PLA), un tipo de plástico biodegradable y basado en biomasa, derivado principalmente del almidón de maíz, de la caña de azúcar o de otras fuentes renovables. Es uno de los biopolímeros más prometedores y utilizados en el campo de los materiales sostenibles. Producto certificado por el laboratorio CSI, Italia, Grupo IMQ. Informe de Prueba n° 1119/FPMMATs23.

WARNING

- Keep away from children.
- Do not eat.
- For airsoft guns only.

ATTENTION

- Ne pas laisser à la portée des enfants moins de 36 mois.
- Ne pas manger.
- Uniquement pour pistolet à billes.

ATTENZIONE

- Tenere lontano dalla portata dei bambini di età inferiore ai 36 mesi.
- Non ingerire.
- Destinato all'uso esclusivo per soft Air.

ATENCIÓN

- Tener lejos del alcance de los niños.
- No ingerir.
- Uso exclusivo para airsoft guns.

- Etichettatura ambientale
- Environmental labelling
- Etiquetado ambiental
